St. Peter's Has Many Mementoes of Interest to Both Englishmen and Americans.

St. Peter's in Bermuda. It is in the teld town of St. George's, and was built in 1713 on the same site as the first church, built in 1630. It is built of the native white limestone, as are all the buildings in the Bermudas, Everything in and about St. Peter's the sub-committee of the house which some is intensely interesting. Its church is investigating ordnance and of gard contains, among others the grave of Hester Tucker, the "Nea" bedence has been given by Lieur. Col. loved of Thomas Moore, the poet, who was an official at St. George's at one time, and promptly fell in love with pretty Hester. Every square luch of the old church walls, inside, are covered with memorial tablets, muny of them being the work of famous English sculptors. Not a few of the tablets perpetuate the memily of members of the English nobility, and it makes one realize what a scourge yellow fever and smallpox were before science got in its boneficent work, for allusions to smallpox and yellow fever being the cause of the deaths are very numerous. St. Peters has a massive silver communion service presented by King William III of England, and christening basin, the gift of Gov. William Browne of Salem, Mass, in 1788. The places presented by the king all have the insignia of the Or-
